

Thank you for participating in our usability study of this differential privacy programming tool. If you complete all parts of the study, you will receive a \$40 electronic gift card of your choice via email¹.

Step-by-Step Instructions

Please follow the steps below to complete the study. As you do the following, please speak aloud and tell us when you start and complete each task:

1. **Complete the DP Wizard tutorial**
Click [here to access the tutorial](#)
2. **Complete Study Tasks**
Follow the [Tasks](#) document to complete your DP analyses using the wizard interface.
3. **Complete the Post-Task Survey**
Fill out the [Post-task Survey](#)

Helpful Resources (Optional but Recommended)

- [DP Handout](#) – A simple guide to Differential Privacy, with an explanatory video
- [DP Wizard Documentation](#) – Quick reference for using DP Wizard
- [Full OpenDP Documentation](#) – Comprehensive documentation

Server Links

- [DP Wizard Server](#) - [URL removed for anonymous review]²
- [Notebook Server](#) - [URL removed for anonymous review]

Datasets

- Private Dataset:
[week_data.csv](#)
- Public Dataset (Synthetic):
[week_data_synthetic.csv](#)

¹ Links that could reveal author or institutional identity have been removed from this archived version for anonymous review. The corresponding study materials are provided separately in the anonymous artifact repository.

²The DP Wizard and Jupyter Notebook servers were temporarily hosted for the study and taken down after data collection. Their URLs have been removed from the archived materials to preserve anonymity.
